

To whom it may concern: In Indiana we have a Telephone Privacy Law that is in effect that is working very effectively. It has been in effect for some time. It has cut our unwanted telephone calls almost to nothing. It has made our lives a lot better, not being harrassed by all those calls. We used to get anywhere from fifteen to twenty calls per day. Now we get mabey two or three a week. My family and I believe that our Law here in The Great State of Indiana has been very effective and we would like for it to remain in effect. Please don't change our law. Yours truly, Ralph Lengacher, Ft. Wayne, Indiana.
